GLORIOUS SUMMERTIME

South Shore Brass Band performing a lively music set at a previous concert in Thomas Park.

It's summertime in Duneland, and Westchester Public Library invites you to enjoy cool breezes and live entertainment in our local parks!

The season kicks off with our first Summer Tunes concert on Friday, June 3 at 7 PM in Thomas Centennial Park. The Valparaiso Community/University Concert Band will perform a wide selection of orchestral favorites and undiscovered gems. On Friday, June 17 at 7 PM, we'll be back at the Thomas Park gazebo with local folk act, the SongSisters. On July 8 at 7 PM, Summer Tunes presents the moody musical stylings of "the bard of the Great Lakes," Lee Murdock. And finally, our last outdoor concert of the season will take place in Hawthorne Park in Porter at 7 PM on Friday, July 22, featuring the triumphant sounds of the South Shore Brass Band.

We're also showing some classic family films in our local parks, as part of our Moonlight Movies series. On Friday, June 10 at 8 PM in Lakeland Park in Burns Harbor, float along with Disney-Pixar's *Up*. Sit under the stars in Thomas Centennial Park on Friday, June 24 at 8 PM for *A League of Their Own*. And join us on July 15 at 8 PM in Porter's Hawthorne Park for the hilarious *Shrek*. Bring the family, and a blanket or lawn chairs, and enjoy free popcorn from the Chesterton-Porter Rotary Club. Bottled water and soft drinks will be available for purchase for \$1.00. In case of inclement weather, these events will take place at the Baugher Center, located at 100 W. Indiana Avenue in Chesterton. For events slated for Hawthorne Park, the rain location will be the Hawthorne Park Community Center at 500 Ackerman Drive in Porter.

For more information about these and our other exciting summer events, visit our website at wpl.lib.in.us, or call the Library at 219-926-7696.

STAFF SPOTLIGHT

Meet our new Thomas Branch Reference Manager Kimberly Wiseman

Theodore Roosevelt said, “Far and away the best prize that life offers is the chance to work hard at work worth doing.” I am deeply grateful to the Westchester Public Library for giving me just such a chance.

Having grown up surrounded by nature in La Porte County, I’ve loved identifying and studying wild plants (and insects, and animals) since childhood. I also love to write, draw, paint, collage, cook/bake, pretend to sing and dance, and generally enjoy good art, design, and music.

And, of course, I love to read. I read a lot of non-fiction, especially autobiographies, history, and old humor; various classics; and older fiction, with its fascinating glimpses into everyday life in the past.

Before libraries, I worked at a museum, a zoo, a senior center, an art gallery, two bakeries, various offices, and a candy factory. This varied background proves useful in Reference, where you never know what you’ll be asked next.

Now, I’ve worked in public libraries for nearly 14 years. The best part about library work—especially Reference—is that you learn constantly, and get to perform a variety of tasks. The brilliant coworkers and wonderful patrons are an added bonus!

Lab Girl
By: Hope Jahren

Join us for a discussion of geobiologist Hope Jahren's compulsively readable autobiography, *Lab Girl*.

Growing up, Jahren spent hours of unfettered play in her father's college laboratory. Later on, she found a sanctuary in science, learning to perform lab work "with both the heart and the hands." Combining both memoir and science writing, she extends the mantle of scientist to all, inviting us to join her in observing and protecting our environment.

Copies of the book will be available for checkout at the Thomas Branch.

BI-FOCAL BOOKIES

The Glorious Guinness Girls
by Emily Hourican

Descendants of the founder of the Guinness beer empire, they were the toast of 1920s high society, with not a care in the world. But Felicity knows better. Sent to live with them as a child, she grows up as the sisters' companion. Both an outsider and a part of the family, she witnesses the complex lives upstairs and downstairs, and sees the compromises and sacrifices beneath the glamour.

Limited copies are available at Hageman.

MAGAZINES OF INTEREST

Acres U.S.A. (Thomas)

Acres U.S.A. holds a unique understanding of and role in the eco-agriculture movement, introducing readers to the experts who are putting both new practices and proven methods to work in the field. We're not reporting on trends from afar; our writers are experts in their field, providing high-level, useful information for serious farmers.

Game & Fish Midwest (Print and Digital)

Every month in *Game & Fish*, you'll discover the best hotspots throughout the midwest region for hunting and fishing. We'll also bring you your state's latest outdoor news, plus plenty of how-to tactics and special strategies designed to make you a more successful hunter and angler.

THE GREAT COURSES

Life in the World's Oceans (DVD)

The Great Courses teams up with the Smithsonian to produce a vivid exploration of life in the world's oceans. In 30 lectures, Professor Sean K. Todd of the College of the Atlantic, one of the world's leading marine biologists, takes you on a journey from the beginning of life on Earth four billion years ago to the environmental factors and international treaties and protocols that affect our oceans today.

Professor Todd shares the latest research from the field's most fascinating areas of study, including marine-mammal intelligence and communication, bioluminescence, exploration of the ocean floor, and the Smithsonian's own cutting-edge research work around the world, including the Great Barrier Reef. You'll learn about life from the smallest phytoplankton that provides about 50 percent of all atmospheric oxygen to the blue whale, the largest animal ever known to have lived on Earth.

Professor Todd takes you to the deepest ocean floor to reveal a pathway to life in the absence of sunlight, discovered only a few decades ago. And in an exciting exploration of marine mammals, you'll learn about instances of tool use, planning, cooperation, communication, learning from other animals, and the ability to recognize oneself in the mirror, a potential step toward self-awareness. *Life in the World's Oceans* will help you understand and appreciate the magnificence of the marine environment.

NEW MOVIE & TELEVISION SERIES RELEASES

TV Series Title: *Blue's Clues & You! Let's Learn with Blue* // **Rating:** TV-G

Synopsis: Practice letter recognition, sounds, math, and science with Josh, Blue, and their friends.

Movie Title: *The Batman* // **Rating:** PG-13

Synopsis: Two years of stalking the streets as the Batman has led Bruce Wayne deep into the shadows of Gotham City. When a killer targets Gotham's elite, a trail of cryptic clues opens an investigation into the underworld. As the evidence begins to lead closer to home, Batman must forge new relationships, unmask the culprit, and bring justice to the corruption that has long plagued Gotham City.

Movie Title: *Luzzu (Maltese)* // **Rating:** NR

Synopsis: Hardworking fisherman Jesmark is faced with an agonizing choice. He can repair his leaky wooden fishing boat, in the hopes of eking out a meager living at sea for his family, or he can decommission it for an EU payout, casting his lot with a sinister black-market operation that is decimating the Mediterranean fish population, and the livelihoods of the local families who depend on it.
